Green Electricity Certificate

We hereby confirm that the company **Hirschmann Automotive VS s.r.o.** secured its electricity consumption from 1/1/2024 to 31/12/2024 with green electricity produced by renewable electricity sources.
The volume of secured emission-free electricity during this period was 13000 MWh.

This certificate is of an informative character only and independently, without additional guarantee of origin, does not serve the customer as proof of green electricity consumption.

A handwritten signature in blue ink, appearing to read 'K. Čermák'.

Mgr. Kamil Čermák
Chairman of the Board of Directors
and CEO of ČEZ ESCO, a.s.
